Ramakrishna Mission Shilpamandira Computer Centre

Dear Friends,

I am deeply sorrowed by the untimely death of your beloved and honourable Principal Swami Tattwajnanananda (Hemant Maharaj).

As you all know Hemant Maharaj had a B.Arch degree from Bombay University and M.Arch from Illinois Institute of Technology, Chicago, U.S.A.

He served in a Company called Skidmor, Owings & Merrill for 8-10 years where he had opportunity to work on very big Projects all over the world as an Architect.

He left behind his high salaried job and all the luxuries of material life in U.S. and returned to India to join Ramakrishna Mission as a Monk. He was determined to fulfil the dream of Swami Vivekananda—to give education mainly technical to common people to equip them with skills for life and bring out strength of character.

Hemant Maharaj struggled hard and faced opposition in the initial stages from all sectors but He was determined to implement the ideas of swamiji about value added technical education, English language and fusion of western science and Indian spirituality. This present status of Shilpamandira educational Institutions is the result of his hard work.

I am a silent spectator of his Life from childhood and his enormous work to bring these Institutions to present status.

I had the privilege of accompanying him to many business houses where he used to talk about value added education at Shilpamandira, His students and placements. He used to discuss about new trends, innovations in technology and job availabilities for his students, which showed how he thought of practically implementing ideas for the benefit of his students and the society in general.

He was a very dynamic and energetic person always willing to help his students, members of staff and teachers to increase the knowledge and to start new trends in these institutions. His progressive and positive approach to solve the problems, his quick decision making and his love for his job is an example for all of us to follow.

Now the responsibility lies on us to take this thought of value added technical education all over India so that the modern youth on whom Swami Vivekananda had great trust will contribute and take our nation to greater height in all the fields. This will be a real 'Shraddhanjali' to your Principal Hemant Maharaj.

Lastly I thank all of you for the kind support and respect you offered to Swami Tattwajnanananda for carrying out his duties as the Principal of Shilpamandira technical educational institutes.

Wishing you and Shilpamandira a very bright future,

I remain,

Yours truly,

(Dnyanchandra Waman Wagh)

I have just returned from overseas and was deeply grieved to learn about the sad passing away of Swami Tattwajnanananda ji.

I had the opportunity of seeing him on the occasion of the 175th birth anniversary of Thakur Sri Ramakrishna in January 2011 and had an inspiring interaction with him.

I take this opportunity to convey my condolences to all his colleagues and followers at the Ramakrishna

Mission Shilpamandira, who would be carrying forward the values and teachings of this great soul.

The glory of Maharaj Tattwajnanananda is spread allover in my personal and professional life as my Guide and Philosopher. Maharaj has created the Engineer in me, made me construct my life in such away that I can hold hands of my successors. His constant inspiration and support will keep Him alive with all of us. We know that we are blessed. Maharaj is our icon of service towards Education. It is our duty and responsibility to follow His path and serve for the institution to fulfill His dreams. Being an ex-student of Maharaj and the institution- I have taken the oath to be at the service of Shilpamandira. I pray for Maharaj's soul to rest in peace.

It is very hard to believe that today I am writing condolence message for my revered Hemanta Maharaj.

Words cannot describe the shock the report of his death has been to me. His sudden grimmest death has

come to me as a bolt from the blue, who knows but the world may end tonight.  
It is really difficult to express my heartfelt sorrow and the memories for the person whom I believed my true mentor, guide and philosopher. He was a source of inspiration, a solace to my sorrow and a benevolent to me.  
I am surprised to think what a legacy he left behind.  
The man born & brought up in Mumbai in a traditional well established Marathi cultured family, educated in Masters and started career in USA with a mind-blowing career path - - sacrificed everything inspired with the thought of Ramakrishna Mission and landed himself in Belur Math in 1983 as a young monk and made himself accustomed to the Bengali culture and overcame the tremendous struggle to establish today's widespread name of RKMS.  
I had many opportunities to seat at his feet and received his blessings; it is rather rare opportunities for me. I am one of the fortunate among others to cherish the remarkable days and moments I got the opportunity to spend with him in Singapore and Mumbai in last two consecutive Durga pujas. Every time, I was surprised to see his vision, leadership and thought process for the further betterment of the RKMS and for the student's future. Even in Singapore, he spent entire day, had meeting with the authorities of polytechnic college to see what new can be adopted for RKMS and for the students. He was full of energy and never felt tired for augmenting the opportunities for the students of RKMS. Last year, in the month of October, he travelled extensively Hyderabad, Bangalore & Mumbai and met many of the corporate leaders to secure the promises for the "campus interviews" for the students. Many a time I accompanied and astonished to perceive his elegance and energy for his beloved students (he used to quote them as his children). He didn't earned money, but he won the heart of many. He left an indelible mark on our heart and his spirituality, advises never to be erased till our death. His death is an irreparable loss to the RKMS.  
I extend my heartfelt condolences, pray to Ramakrishna Paramhansadev to provide solace to the departed soul. **May his soul rest in peace.**

of Rev. Hemanta Mj. I am now at RK Kutir, Almora. We all feel very sad to hear this news, personally I

missed a great friend from Chicago days and of course a guide in spiritual journey. The way he was injured and hospitalized I am sure Thakur knows the best to take him into his lap rather than suffer on the earth after partial recovery. Please convey our heartfelt condolence to all at Shilpamandira and also

to his brother whom I met in March this year. If any recollections in his memory please let me know so that I can contribute to it also let me know if I can ne any service relating to Hemanta Maharaj's work.

I felt awfully shocked to learn about the sad and untimely “prayan” of our respected “Maharaj”.

I am not among his uncountable students, but my son is. From him, I had, on numerous days, learnt about the highest degree of care he had for them, how he had taught them to be disciplined, how he had

maintained discipline in the campus to elevate it into an un-matching superior standard. On two occasions I have had the opportunity to see him from a distance and I was mesmerized to hear his uttering the hymns and his spontaneous singing of songs for the young students during “Nabin Baran”.

The aura of knowledge, the grace of disciplined love, the fatherly affection and control had an unending

effect on his students. I being an ordinary visitor, had an everlasting picture of his gracious presence

in  
my mind and I shall for ever keep it in my mind.  
A great man like him never dies, he will continue to live in the hearts of hundreds and thousands of  
his  
students ( or “his sons” ) for ever, his spirit will continue to elevate the Shilpamandira to newer heights  
day by day and his breath will be felt in its every sphere of development.  
May his soul rest in eternal peace in the Ramakrishnaloka.  
My heartfelt pranam to the Maharaj.

Revered Swamiji,

Thank you very much for your letter dated June 3<sup>rd</sup> (which reached my on June 17<sup>th</sup>).

I am grateful to you for your kind wishes. They are invaluable to me. Please accept my sincere thanks for your kind gesture.

I am sorry to learn about the sad demise of Rev. Swami Tattwajnanandaji in an unfortunate accident. I remember with gratitude the kind courtesies he extended to me during my visit to Belur Math in February 2012 to speak at a conference arranged by him. May his soul rest in peace.

Best regards.

**26/6/2013**

**I** am shocked and saddened by news of the unfortunate demise of Swami Tattwajnananda Ji Maharaj (Principal Ramakrishna Mission Shilpamandira) on 10<sup>th</sup> June 2013.

The relation between Swami Tattwajnananda Ji Maharaj (Popularly known as Hemant Maharaj) and me was like a father and son and we were well connected since 1993 almost 20 years. By Profession (before joining at Ramakrishna Mission) he was an Architect. But I also found him as :

A great Philosopher.  
An educationist.  
A writer.  
A speaker.  
A challenger.  
And of course a good Administrator.

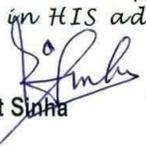

He was always a 24 X 7 worker and ruled by time. His entire life was spend for the development of people of Bengal especially for the youth.

He developed Community centre (erstwhile Community Polytechnic ), Computer Centre, PRAYUKTI a Bengali magazine on technology, CDRT - Centre for rural development and technology.

Various local and national institutions used to take his valuable advice from time to time like Agrasain Balika Siksha Sadan, MCKV institute of Engineering, Shegaon Engineering College, Maharastra and many more. The Belur Math and Belur Railway Station was built on his concept.

At times like this its hard to find words to say, I have never thought that I will be having such misfortune to write a condolence for Hemant Maharaj.

I pray to the Almighty that his soul that departed in His land may accorded in a place of honor where Hemant Maharaj can stay in peace in HIS adobe.

On his attaining the Ramakrishna Loka, there are many of us here in Chicago, and also in the Ganges Ashramas who are proud of him.

His Dinning Hall and the Museum, and the Ashrama in Ganges bear testimony for his work here. Thus he will be remembered by all of us.

I often recall, with some pride, what Respected and Pujya Shri Swami Rangnathanandaji Maharaj said about Hemanta Mj's design of the dinning hall "as the best dinning hall in the world he has ever seen".

Please convey our sorrow and also pride to his numbers of friends, students and staff of the School and also his many brother monks who will miss him, even as we do here!

Our respectful Namaskars to all at HQ.
